THE BAGGAGE STANDARD.—At the recent meeting of the Southeastern general passenger agents' association in Atlanta, the chief subject of discussion was the amount of baggage each passenger is entitled to carry. It was a well known fact that there has been a great deal of difference among the railroads in charges for extra baggage. A hundred and fifty pound to the person holding a first class ticket is the standard, and was adopted by the association. All the lines interested are morally abligated to rigidly carry this regulation into effect at once, and hereafter all passengers must pay extra for baggage in excess of this weight.

R. W. Glenn et als vs. Farmers Bank et als, from Guilford; argued by A. W. Tourgee for the plaintiffs, and Scott and Caldwell and Thomas Ruffin for the defendants.

Court adjourned to 10 o'clock (Tuesday) morning.

DEATH OF B. Y. ROGERS.—Raleigh has lost another good citizen. Last Sunday morning, at 5 30 o'clock. Mr Rogers departed this life, at his residence on Person street. Though he had been suffering for a long time, few of us thought he would be snatched from earth to eternity so suddenly; as he, occasionally, was able to ride out in his buggy; but alas, the disease (heart and dropsy) had worked so mysteriously that he was in a more feeble condition than was supposed, even by his most intimate and dearest friends.

Mr. Rogers was born in Granville county, but had lived in Raleigh and its vicinity for a number of years, and had a great many warm friends who will read this announcement with deep regret.

The funeral services were conducted at the Second Baptist church yesterday afternoon, after which the remains were escorted by Wm. G. Hill Lodge and a large concourse of friends to Oakwood Cemetery, where the last sad rites were paid to the deceased.

STABBED TO DEATH.—On Saturday night last a very bloodthirsty encounter between Robert Watson and Richard Pierce, both colored, took place near the residence of Mr. Gill, in Wake Forest township, in the northern portion of this county. It appears that Watson went to Mr. Gill's house in the evening and asked him for his knife, stating that old man Harry, who is Mr. Gill's teamster, wanted it. Mr. Gill gave him the knife and he left for Mr. W. B Smith's where he remained quite a time. In the mean time Pierce was seen by two colored men standing at the corner of a fence between Mr. Gill's and Mr. Smith's, about 100 yards from Gill's. He was asked what he was doing there. He said "I am waiting for Bob Watson, he owes me some money, and I am going to have this kill him." A short [illegible] Watson returned Pierce was standing. the place [illegible] was no witness to the scene that ensued, but a terrible combat must have been carried on between them; the ground was torn up and blood bespattered for fifteen feet around. Pierce first left the conflict and went to Mr. Gill's, and as soon he reached the house, fell on the door steps and cried out "help." He was carried to a place about 50 steps off, but it was too late, he was near spent, and in a few moments expired—saying, "I was killed by Bob Watson." Watson, no doubt, sustained serious injurious in the death fight and was traced by drops of blood for more than one hundred yards from the scene—towards Granville county—and is still at large. Upon examination it was found that Pierce was stabbed in the left side under the fifth rib, a long heavy gash that brought on untimely death.

Senator Ransom.

Wilmington Star.

A correspondent of the Nashville American some weeks ago, writing from Washington, paid Senator Ransom a high and deserved tribute. We noted at the time one remark. He said that he was "not great at a set oration but a fountain of eloquence when an occasion touches his heart and spurs his brain to action." We have never met with worse criticism than this. Gen. Ransom's forte lies in "set orations." His famous speech delivered three or four years ago in the Senate in defence of the South and in behalf of conciliation and peace between the sections, was a model of elaborate thought and fervid eloquence. It was the effort of his life. It attracted universal attension. It was complimented exceedingly and deservedly by men of all parties. The Republican Senator from Vermont, Mr. Morrell, declared it was one of the most eloquent efforts ever delivered in the Senate. The late Abram W. Venable pronounced it the most rhetorical speech that he had read in twenty years.

We have a recent book which contains no less than three extracts from that splendid effort. The speech is very long, very eloquent, very elevated in sentiment, very impressive and persuasive. Throughout there is a fine vein of lofty thought and expression. The sentiments are manly and noble. Of its kind the speech is simply and unquestionably a masterpiece, as far above his extemporized efforts as it is possible to conceive.

There was once in the British Parliament, in the days of Burke and Pitt, the younger, and Charles James Fox, a very gifted man who made one speech that made him immortal. It was praised by every one. He never again raised his voice in those famous halls of debate. He has passed into history as "Single-speech Hamilton." If Gen. Ransom had never made another speech in the Senate he would have been long remembered because of the dignified, beautiful, rhetorical and brilliant effort to which we have referred. We do not deny him the gift of "touching the heart," or of readiness on the spur of the moment. The point we make is that he is great "at a set oration," and that he surpasses himself on such occasions. As Macaulay said of Warren Hastings "writing above himself," so Senator Ransom on a "set occasion" "speaks above himself."

Cleveland Men and Things.

Correspondence Southern Home.

Messrs. Schenck & Ramseur, proprietors of these mills, are young men, full of enterprise, courteous and obliging, giving employment to many laborers. The factory is a three story frame building, on granite pillars on a flashing little stream, Knob Creek, a tributary of Broad river, about twelve miles north of Shelby. Little cottages stand upon the hills on each side of the brook, being healthy homes for many families connected with the business. A corn mill, saw-mill, smith shop, gin, carpenter shop, &c., give variety to industry. The times are hard and the causes are discussed here as elsewhere. The question for debate in the Academy to-night; is: "Has the cultivation of cotton been an advantage to the South." The principal of the School, Mr. Royster, will defend the negative, and the matter is being canvassed to-day all around. Mr. Hoyle, the Senator from Cleaveland and Gaston, lives near the mills, and his course in the Legislatuae is watched with interest and pride by his constituents. Just now they are anxious about what he will do about the stock law, a subject of vital interest in the county. The people of this section are proud of their representative, Mr. Powers, the member from Cleaveland.

The country between this and Shelby is level and pretty, and Shelby can be seen for 8 or 10 miles, and the public roads are smooth and good even at this season. The land in this county has not depreciated as in some others during the few years past; none can be bought for less than $10 per acre. Industrious, intelligent and well-to-do immigrants, would improve things and be very welcome. If any of your readers are thinking of investing and moving upward in North Crrolina, where the water is most excellent, let me commend them to Messrs. Schenck & Ramsuer, Cleveland Mills, Cleveland county, N. C.

SENATE.

MONDAY, March 10, 1879.

The Senate was called to order at 10 a. m., President Robinson in the chair.

Prayer by Rev. Dr. Marshall.

Mr. Bryan, of Pender, from the committee of conference on the bill to prevent the killing of live stock on the Carolina Central Railroad, reported a recommendation that the Senate recede from all its amendments except that including conductors and engineers in the provisions of the bill. The Senate concurred in the report of the committee, and the bill went to the [illegible] concurrence. [illegible] and Waddel presented [illegible] reports from standing committees.

SEABOARD AND RALEIGH R. R.

Mr. Respass moved for a suspension of the rules to put upon its passage, third reading, the bill "to commute, compound and settle a portion of the public debt," known as the Williamston and Tarboro Railroad.

Here a lengthy debate ensued. The opponents of the bill asked that the revenue bill be first disposed of, and then they were willing to enter upon a fair discussion of the railroad bill and come to a square vote.

The friends of the railroad bill insisted on going on with it.

The other side then gave notice that if it was the purpose of the friends of the railroad bill to force the measure through and resort to the gag law, as had been intimated by Mr. Respass, they would fight it by all the means in their power. The opponents of the bill said they were willing to treat the east in all fairness, but they thought the proposed measure injurious to the State and ruinous to the Democratic party.

Mr. Respass proceeded to address the Senate in support of the bill, he contended the bonds to be exchanged for the new State bonds were of the same class as those of the Wilmington, Charlotte and Rutherford road which has been recognized by the State. He went to show that the proposed loan was fully secured, and the issue of the bonds was made to depend upon the progress of the road, $3 000 to be paid as each mile of the road was ironed. Mr. R. spoke of the importance of the work, connecting the sounds of the east with the great west. He concluded by intimating that Gov. Jarvis was in favor of the bill.

Mr. Scales undertook to say that Mr. Respass was not warranted in his statement in regard to the position of Gov Jarvis in the matter. Mr. S. referring to the caption of the bill denied that the purpose of the measure was to settle a portion of the public debt. The friends of the bill themselves did not seem to understand ite provisions. The $150,000 bonds proposed to be returned to the State was no part of the State debt. Mr. S. proceeded to give a history of the bonds and dwelt at some length upon the convention of 1868, a body which no man in the State had ever dared to defend but Mr. Everett. The ordinances of that convention were cited to show that the State merely proposed to lend the Williamston and Tarboro road $150,000, to be secured by a first mortgage on the work. The history of the $300,000 got through the Legislature of 1868 was gone into, and also the contract with John F. Peckerell, otherwise L. P. Bayne & Co. These latter bonds were declared unconstitutional, but Peckerell threw up his contract, the $300,000 of bonds were deposited with Bayne & Co, as collateral for $20,000.

Many other Senators followed Mr. Scales for and against the bill.

The Senate then at 4:30 p. m. took a recess till 7:30 o'clock.

Mr. Speaker Moring called the House to order, and Rev. M. M Marshall, D. D., of Christ Church, offered a prayer.

The bill to adjust and review that portion of the public debt due on the construction bonds of the North Carolina Railroad, came up as a special order on its final reading.

Mr. McGehee spoke in favor of the bill.

Mr. Turner opposed that part of the bill appointing commissioners, thinking the State Treasurer should do the work of exchange, and moved to strike out the word "commissioners."

Mr. Turner's amendment to strike out was lost.

Mr. Cooke offered an amendment to strike out the words 'certificates issued by them" and insert the words "bonds purchased by them."

Mr. Cooke's amendment was then adopted, and the bill as amended passed its final reading by a vote of ayes 61, nays 16.

The Census in the South.

In the contributions of Senator Blaine to the North American Review on the subject of negro suffrage there is a statement which he evidently wishes to go out as a fact and to be accepted as such without question. The statement is to the effect that the next census will show that the North has grown greatly in population since 1870, and that the South has not grown at all, and that the South was cheated so atrocious sue is at present. There is a lively cat in this meat-tub, and we propose to expose it.

In 1870, the Republican party having seized the Southern States, it went to work to magnify the importance of the negro and to diminish the importance of the whites. With this view, among other fraudulent contrivances, it used the census of 1870 as a lever to aid its political fortunes. The census-takers were very generally ignorant negroes or debased whites. They systematically sought to include every negro in the list and to exclude as many whites as possible. Advantage was taken of the temporary absence from the cities during the summer months of that large number of whites who annually seek recreation or health away from their homes. The census of the city of Mobile did not fairly represent the strength of the whites; and so of New Orleans and the other Southern cities.

As regards the black population, the census-takers, being of that race, and being paid so much for every name put upon the list, and it being safer to include fraudulent black names, not only placed upon the list every name of a person, but counted the same black as often as he was found in his migrations. In numerous instances names of blacks were placed upon their lists when no such persons were in existence.

These frauds were suggested and permitted by the party leaders, and were eagerly committed because of the increased wages they brought to the census-taker. The returns showed a much larger black population than actually existed, and a much smaller white population than actually existed. The fraudulent statements were made the basis of Republican majorities which did not in the fact exist. Counties, congressional districts, and States, were claimed as having black majorities, and therefore as necessarily being Republican, which really had white and Democratic majorities. So soon as the Republicans fell out among themselves, and let a better class of public servants, it was immediately apparent that the black vote had been constantly and sympathetically misrepresented. The very moment fraudulent voting was put a stop to by close inspection of the registry, that very moment the white majorities increased rapidly and the black majorities decreased even more rapidly. The whole Republican usurpation had been based upon a fraud, and it fell when the fraud was exposed.

Now Senator Blaine comes forward with a declaration which he intends shall be accepted by his party leaders and party press. It is the first step in a conspiracy which looks to manipulating the census of 1880 in the interest of the Republican party. In 1870 it was to their interest to show an increase of the negro population. In 1880 it will be to their interest to show a decrease.

Senator Blaine states what is not true. The increase at the North has not been greater in ratio than that at the South during the present decade. The natural increase of population is the same all over the country, and has always been the same. The advantage the North has had over the South is in the matter of immigration; but all the world knows that the single State of Texas has received a larger population than has come into the United States from abroad. How, then, is it possible that the North has grown more than the South? Senator Blaine could not have failed to see that during the present decade the South has received a large population from northern and western States, and that the State of Texas has received a large proportion of foreign immigration.

Whatever increase of population has taken place beyond the natural increase, will be found in the southern and western States, and not in the middle or eastern States; but undoubtedly the Republican leaders will see to it that the increased population, as shown by the census, will be distributed where it will do most good. They will find it more difficult, however, to commit this fraud than it was to cheat the people of the presidency. The next Congress will pass no bill looking to a reapportionment of the members of Congress and of the electoral colleges upon the basis of a fraudulent census.

A Cheerful Wife.

What a blessing to a household is a merry, cheerful woman—one whose spirits are not affected by wet days or little disappointments—one whose milk of human kindness does not grow sour in the sunshine of prosperity! Such a woman, in the darkest hours, brightens the house like a piece of sunshiny weather. The magnetism of her smiles and the electrical brightness of her looks and movements infect every one. The children go to school with the sense of something great to be achieved; the husband goes into the world in a conqueror's spirit. No matter how people annoy and worry him through the day, far off her presence shines, and he whispers to himself: "At home I shall find rest." So day by day she literally renews the his strength and energy. And if you know a man with a beaming face, a kind heart, and a prosperous business in nine cases out of ten you will find he has a wife of this kind.

It Was at the House

Of a well known Doctor of Divinity, and the little toddling girl, who did not like to see her aunt trim a lighted kerosene lamp, had come honestly by a somewhat modified theory of predestination: "Take care, take care, or you will get blown up into the sky, and then God will say: Girls what are you in such a hurry for?" JOHN B. HUSSEY, - Editor.

The Public Printing.

"WHEREAS, it is currently reported that threats and promises were made, and improper and undue influences were used by certain parties interested in the question of the public printing during the early part of this session of the General Assembly, with a view to control the votes of Senators and Representatives for or against the in-determination said parties interested in printing; therefore. [illegible] public

Resolved by the Senate, That a committee of three Senators be appointed by the President pro tem, to inquire into and investigate this matter and report to this body the result of this investigation. And said committee shall have power to send for persons and papers and administer oaths."

Adopted March 1st, 1879.

A true copy—Test,

ROBT. M. FURMAN,
Sec. Senate,

The committee appointed by the Senate to icquire threats and premises were made, end improper and undue influences were used by certain parties interested in the question of the public printing during the early part of this session of the General Assembly, with a view to control the votes of the Senators and Representatives in determining the question of public printing, report:

That they examined on oath Hon. John M. Moring, Speaker of the House of Representatives, M. E. Carter, member of the House, Senators Bynum and Leach, and Col. Walter Clark, George C Jordan, and Col. Thomas M. Holt.

We find that Col. Walter Clark and Geo. C. Jordan did make threats and promises with a view to control the votes of Senators and Representatives in determining the question of public printing according to the evidence herewith filled as part of this report.

W. T. DORTCH,
Chairman,
GEO. H. SNOW,
RUFUS WHITE,
Committee.

M. E. CARTER'S TESTIMONY.

M. E. Carter being duly sworn, says: I am a member of the House of Representatives from Buncombe county. Before the meeting of the caucus on public printing I had a number of conversations with Mr. George C. Jordan, of the NEWS, in regard to the printing. He said the NEWS had been so occupied with the Senatorial question that it had not said much of late for the Western North Carolina Railroad. He said further, that as soon as the public printing was settled, the NEWS would take strong ground for the Road. The substance of the conversation was repeated to me two or three times by him. On one occasion, in the Yarborough House, Mr. Jordan said that hereafter the NEWS would stand by its friends and fight its enemies. He said he did not endorse the policy of some papers, of helping their enemies, because that would be to drive away friends. It did not occur to me at that moment that this was intended as a threat however, I may regard it now. I received a note from Mr. Jordan, stating substantially that the NEWS would be a friend to the Western North Carolina Railroad. I have tried to find the note, but cannot, after dilligent search. Mr. Jordan and I talked this matter over a day or two ago, and in the conversation I referred to the note and the statement he made in regard to the course of the NEWS toward the W. N. C. R. R. and he said, "I was a friend to the road and have asked you since then to write for the NEWS in behalf of the road."

Q. Did you think from these conversations with Mr. Jordan that he was seeking to influence the vote of yourself and others on the question of public printing.

A. I did.

MR. JORDAN'S TESTIMONY:

George C. Jordan being duly sworn, says: At the time of the contest for public printing I was sole proprietor, by right of lease, of the Raleigh NEWS.

Q. Did you directly or indirectly use or attempt to use any influence upon a member or members of this Legislature in the interest of the Raleigh NEWS for Public Printer?

A. I endeavored to the extent of my ability to influence the public printing for the NEWS in a legitimate way, but used no undue influences upon any member of this Legislature. I made no promises or threats nor did I authorize any promises or threats, nor did I at that time know of any promises or threats having meen made to any member or members of the Legislature.

Senators Leach and Bynum, Speaker Moring and Representative Carter, of Buncombe testify to certain "threats" made by Walter Clark in connection with the printing. Whether Mr. Clark made any threats is a matter of veracity between that gentleman and Messrs. Leach and others. What he said or did in the premises, however, was without the knowledge or consent or authority of the editor or proprietor of the NEWS. That he had then nor has now any interest or connection with the NEWS is distinctly and unqualifiedly avowed in his testimony before the committee:

Walter Clark being sworn, says: In the present ownership of the NEWS or in its present management, I have not the slightest control or interest. I am a large stocke-holder in the Lessor Company. It is leased for five years to Messrs. Hussey & Jordan, at a fixed rent, which is secured by mortgage of real estate in this town; that is, they have bought it for five years absolutely free from any control direct or indirect of the Lessor Company or any of its stookholders, and are to return it at the end of that time in like condition. The Lessor Company has no more to do with its management or editorial control, since the lease, than the North Carolina Railroad Company has over that road, since their lease to the Richmond & Danville Railroad. The lease to Jordan was executed on the 1st of May last. Mr. Hussey came in and made himself a party to it sometime in January of this year"

MR. JORDAN'S FURTHER STATEMENT.

The publication of the testimony before the Senate Committee touching certain threats made to influence the the[illegible]inting, impells me to submit reply to the insinuations made yet in Carter of Buncombe. Having reason to believe that Mr. Carter was a friend to the NEWS, I had one, or more, confidential communications with him on the subject of the course of the paper and its policy. I did say to him, as I have said to others, that the NEWS believed in the principle of rewarding its personal friends, where personal considerations were alone involved.

What I said to Mr. Carter was in confidence and not as a threat, and he so regarded it, for he promptly replied, in substance: "Yes that is right, otherwise there is no inducement for our friends to work for us."

I had some conversation with Mr. Carter about the Western North Carolina railroad. I told him that the NEWS was friendly to that road. At that time I was sole proprietor of the paper and had a voice in shaping its policy. I had had no conference with the editor of the paper, Mr. Hussey, in regard to the matter. It had, however, been incidentally mentioned and from what was said, I understood Mr. Hussey's opinion to be that any discussion of the matter was premature. A few days ago in conversation with Mr. Carter, in talking over the matters embraced in his testimony for the purpose of refreshing his memory, as he said, unqualifiely avowed to me: "You did not make any threats to me. They (the committee) are not after you, it is that man Clark and they have caught him."

As distinctly stated before the committee, I have used no threats or made no promises to influence the vote of any Senator or Representative in the matter of the public printing, and any insinuation or charge to the contrary is false, absolutely false. The report of the committee connecting me with any such threat or promise, based solely on the distorted evidence of M E Carter, does me a gross injustice. I am personally responsible for what I say.

GEO. C. JORDAN.

STATEMENT OF JOHN B. HUSSEY.

Since last November I have been managing editor of the RALEIGH NEWS. On the 27th of January last I become a joint proprietor with Mr. Geo. C. Jordan in the lease of the paper for a term of five years. By the terms of the lease the paper is under my sole and exclusive control and direction. My attention was called some days ago while in Washington city to the resolution introduced in the Senate by Mr. Robinson, of Macon, authorizing a committee to inquire into certain alleged threats and promises made by certain parties to influence the votes of Senators and Representatives in the contest for the public printing. I at once addressed a letter to the committee asking to be heard in vindication of the NEWS. I was unavoidably detained in Washington and did not reach this city until the committee had concluded its labors and submitted its report to the Senate. I therefore submit the following statement touching the charges in the premises:

I not only used no threat or promise to influence the vote of any Senator or Representative in the matter of the public printing, but did not approach a Senator or Representative on the subject. If any threat was made or any promise given or any undue influence exerted or attempted, in the premises, it was without my knowledge or consent and without authority. If any such means were employed by any one assuming to act by authority, of the NEWS I denounce the means as a base attempt to prostitute the power of the press and the author of such means a scoundrel.

JNO. B. HUSSEY

The New Congress

The political complexion of the new Senate is not a matter of doubt or dispute. Including a republican to be elected in New Hampshire next June, the Senate will consist of 42 Democrats, 33 Republicans and David Davis. The Democratic majority over all will not be less than 8, and it will oftentimes be 10, on account of the vote of Illinois ponderous independent.

But when we come to the house the statisticians disagree. On account of six vacancies the house will consist at its meeting of 287 members: 144 are therefore a majority, This much is certain; but beyond this there is more or less uncertainty. We have gone over the list with all the care and information we could muster, and we do not see how the Democratic strength can fall below 147, if there is no absenteeism on account of sickness or other disability. Messrs. Acklin of Louisiana, Bland of Missouri, Singleton of Illinois, and one or two others, are at present detained at home by sickness. but it is unreasonable to assume that one side will suffer in this way more than the other. Our estimate gives the nationals 11, namely: Messrs. Lowe of Alabama, Forsythe of Illinois, De La Matyr of Indiana, Weaver and Gillette of Iowa, Ladd and Murch of Maine, Foad of Missouri, Russell of North Carolina, Yocum of Pennsylvania, and Jones of Texas. These figures leave the Radica's 129. It does not matter what their vote is, if the Democrats are sure at the outset of a majority over all. Of the 147 given to the Democrats in this estimate, we do not know of but one doubtful or disputed name—Mr. Hendrick B. Wright, of Pennsylvania. Mr. Wright was a member of the last congress, and as such acted with the Democrats. He is in fact a Tom Ewing Democrat, and there can be no doubt of his participation in the Democratic caucus. If the handful of greenbackers find that they have not strength enough to drive a trade on, they will dissolve, and the democrats will get the larger part of the squad. In that event the Democratic candidate for speaker will have not less than twenty majority. That will be just about the size of it.

The Cipher Report.

The report of the Potter on the cipher dispatches is published. It relates the history of the dispatches, that is, the various hands through which they passed before they were brought to the attention of the public, and concludes by describing what Smith M. Weed and Pelton were prepared to do with the members of the Returning Board, when Mr. Tilden declined to accept the Presidency to which he had been elected as an article sold at auction. There is nothing in the report with which the public is not thoroughly familiar. The four points are these: First, the Republican managers were, by the connivance of the Western Union Telegraph Company, enable to withdraw their criminating dispatches before the light of impartial investigation was turned on; second, the Democratic dispatches show that the Returning Board of Louisiana and Florida were for sale; third certain Democrats acting without authority were prepared to pay them their price rather than permit the Presidency to go to the man who had not been elected; fourth Samuel J. Tilden's only connection with these negotiations was to stop them instantly when they were brought to his attention.

It is, however, perhaps the most significant thing about this report that it has not been looked for with the least public interest, and will not give rise to a ripple of discussion. A more complete political fizzle was never seen than the attempt of the persons who perpetrated the Presidential fraud [illegible] suade the country that the man defrauded had been engaged in corrupt negotiations to obtain the office to which the American people elected him. The investigation simply demonstrated, what had never been doubtful, that the Presidency was stolen and that the thieves were rewarded by the receiever, who is Rutherford B. Hayes.

THE first work of both houses should be to reorganize their committees and at once frame bills repealing the unfair, odious, partisan laws. They should ask the president to agree with them to repeal the law allowing soldiers to go to the polls under pretext of keeping the peace, and to repeal the laws relating to jarors, so that persons brought before the courts may have a fair trial, and another law, the United States supervisors', and provide that the United States government shall not interfere with affairs pertaining to States. When these three bills shall have been signed by the president, then Congress will pass the appropriation bills, and it should not do so till then. The democrats have taken a noble stand on this question, and they should not permit their enemies to drive them from it. They should stand firm and not give the administration another dollar till it consents to a redress of these grievances. The repeal of these obnoxious statutes should be made a condition precedent to the passage of the appropriation bill's.

MR. ROBINSON'S smelling committe started out to find whether any Senator or Representative had been threatened or cajoled or bulldozed to vote for the NEWS for public printer. And when Mr. Dortch asked one of the proprietors of this paper, Who wrote certain editorials in the NEWS on the Western N. C. Railroad, the committee "unanimously" voted it a "proper question."

And when the handsome young Senator from Wake knitted his ponderous eye brows and gravely inquired.—'Is Major John W. Graham a stockholder in the News? the committee "unanimously" voted it a proper question.

The Extra Session.

The policy of the Democratic party at the extra session cannot yet be demined.

Mr. Beck says Congress will pass acts repealing the obnoxious election laws, thus giving the president an opportunity to act upon them upon their merits. If he vetoes them, they will be attached to the appropriation bills. As most of the legislation sought te be cepealed was inflicted upon the country by tacking it upon the appropriation bills, it is plain that the mouths of the radical blatherskites are stopped as to that particular method. But whatever the programme may be the democrats are pledged to insist upon an erasure of those unjust laws from the statute-books, no matter how long it may take or how much the Chandlers and Logans may flounce and fume.

ROBINSON'S COMMITTEE has counted out the NEWS on the evidence of M. E. Carter Esqr., of Buncombe county. Carter swears that Jordan tried to bulldoze him into voting for the NEWS, but he did'nt scare much. Indeed he did not know at the time that it was a bulldozing operation, so gentle and childlike was the bland and amiable Jordan.

THE NEWS, it seems has misapprehended the position of the Charlotte Observer in reference to the Western North Carolina railroad appropriation. Defining its position the Observer says:

"Many months before the General Assembly met the Observer expressed the opinion that it would be wise in that body to continue the prosecution of the work; and the same opinion has been reiterated more than once since. The Democratic party is pledged to the completion of the road, and even if it were not, to complete it would be, in our opinion, good business policy. We are not among those who favor leaving it in its present incomplete and consequently valueless condition, and hence have noticed with pleasure the indications of a purpose in the part of the General Assemby to make provisions for the continuation of the works."

IT [illegible] itself to the appropriation bills, there [illegible] no difficulty in finding men who can intelligently take hold of the work in the committee rooms. Seven of the house committee on appropriations were elected, including the chairman, and his right hand man, Mr. Blount. Seven of the old Senate committee on appropriations are also members, four democrats and three republicans. It is difficult now to say whether the speaker will simply appoint a committee on appropriations and possibly a committee on military affairs, or whether he will name all the standing committees. His action will depend doubtless upon the line adopted by the democrats after they have ascertained the purposes of the opposition.

ROBINSON'S Committee reports that one Walter Clark made threats with a view to control the votes of Senators and Representatives in determining the question of the public printing."

Who is this terrible fellow Clark, anyway?

How does the public printing concern him?

Was he is the least interested in the printing?

On these important questions the committees report is painfully silent.

WHEN Mr. Dortch "punished" the NEWS in the Democratic caucus for assuming to dictate to the Democratic party that Gov. Vance should be elected to the United States Senate" we thought he was content. But, nay! his inquisitorial curiosity wants to know the man who has the impudence to persist in writing its editorials. And Mr. Dortch's committee "unanimously" sustains him. Mr. Snow was enthusiastically "unanimous."

A RESOLUTION was rushed through the House Saturday at break-neck speed authorizing the Governor to have printed twenty thousand copies of a pamphlet in Dutch for distribution in Holland. What it is to contain or what it will cost nobody knows. The cost of translation, printing and distribution can hardly be less than $4,000. It can't be printed in North Carolina.

THERE is something exquisitely funny in MR DORTCH'S report charging Mr. GEO. C. JORDAN with intimidating Senators and Representatives. The gentle George might cajole an unsophisticated solon like Mr. Carter, but intimidate, never.

Never?

Well, hardly ever.

AND MR. GEO. C. JORDAN made threats with a view to control the votes of Senators and Representatives in determining the question of the public printing. But so gentle was the wooing that the able member from Buncombe, Mr. Carter, was deceived.

REPRESENTATIVE Vaughan has been seriously indisposed for several days. He returned to his home yesterday and will receive the plaudits of a people and a section he has ably and faithfully served as a legislator. The NEWS wishes him a speedy restoration to health.

AN EXTRACT from Congressman Steele's speech on the Southard amendment appears elsewhere. He talks seldom, but rarely fails to make a good hit when there is anything to bit at.

THE Democratic party is being congratulated on its "backbone" in forcing an extra session. Ha! what unsophisticated fellows are these rural editors.

Lincolnton News.

There is no place in our good old State so dear and attractive as our old county of Lincoln. A climate and soil that produces cotton and flax and wool to wear, corn and wheat and every vegatable to eat, and hogs and cattle in abundance, and the purest and coolest water to drink, fine water powers, enterprising men, beautiful women, and health for every one and mineral springs to cure the diseases of other regions. Who would exchange such a climate and such a people for anywhere else? The best cure our people could have for discontent would be to travel and see that there is no better place than old Lincoln.

TARBORO, N. C., 1878.

DR. H. R. STEVENS:—

Dear Sir,—I feel very grateful for what your valuable medicine, Vegetine, has done in my family. I wish to express my thanks by informing you of the wonderful cure of my son; also, to let you know that Vegetine is the best medicine I ever saw for Chills, Shakes, Fever and Ague. My son was sick with measles in 1878, which left him with Hip-joint disease. my son suffered a great deal of pain, all of the time; the pain was so great he did nothing but cry. The doctors did no help him a particle, he could not lift his foot from the floor, he could not move without crutches. I read your advertisement in the "Louisville Courier-Journal," that Vegetine was a great Blood Purifier and Blood Good. I tried one bottle, which was a great benefit. He kept on with the medicine, gradually gaining. He has taken eight bottles in all, and he is completely restored to health, walks without crutches or cane. He is twenty years of age. I have a younger son, fifteen years of age, who is subject to colds. Whenever he feels one coming on, he comes in, takes a dose of Vegetine and that is the last of the Chill. Vegetine leaves no bad effect upon the system like the most of the medicines recommended for Chills. I cheerfully recommend Vegetine for such complaints. I think it is the greatest medicine in the world.

Very truly, MRS. J. W. LLOYD.

VEGETINE will restore health to the debilitated and nervous sufferer. By its use the blood becomes purified, the liver and kidneys are regulated, and all the functions of the body are strengthened and invigorated. Vegetine is not a stimulating medicine, but acts upon the principle of a tonic, alterative and solvent. Vegetine is the best blood purifier yet discovered. Vegetine will cure Scrofula, Scrofulous Humors, Blood Poisons, Pimples on the Face, Blotches, Boils, Salt Rheum, Erysipelas, Ringworm, Tetter, Syphilitic Diseases, Female Weakness, Leucorrhœa, Ulcers on any part of the body, Dyspepsia, Sick Headache, Indigestion, Constipation, Kidney Complaints, Dropsy, Diabetes, Urinary Difficulties, Nervousness, Neuralgia, Rheumatism, Catarrh, Piles, Fever Sores, Canker, Mercurial Diseases, Chronic Diarrhœa, Consumption, Malaria, Fever and Ague, Chills and Fever, Bilious Fever, Inflammation of the Kidneys, Liver and Bladder, Hemorrhages, Heart Disease, Palpitation of the Heart, Nervous Headache, Nervous Prostration, Nervous Debility, Sleeplessness, Hysteria, Melancholy, Mental Depression, Loss of Memory, Universal Lassitude of the Muscular System, Hot Flashes, Decay, Wasting and Premature Old Age, Barrenness, Loss of Power, Involuntary Discharges, Spermatorrhœa, Impotence, Sexual Irritation, Softening of the Brain, Paralysis, Diseases of the Skin, Scurvy, Itch, Scald Head, Ringworm, Old Sores, Carbuncles, Eruptions of the Blood, Boils, Blood Poisoning, Scarlet Fever, Measles, Diseases of the Throat, Ulceration of the Mouth, Uterine Diseases, Chronic Inflammation and Ulceration of the Womb, Falling and Displacements, Leucorrhœa, Suppressed or Painful Menstruation, Change of Life, Uterine Tumors, Pain in the Back, Hips and Limbs, Female Weakness, Gravel, Pain in the Region of the Kidneys, and all Diseases that arise from Impure Blood, Low State of the System, or Deranged Liver, Stomach, Kidneys or Nervous System.

Sanford's Series Analytical Arithmetics

AND

Worcester's Dicti

Sanford's Series comprises four books, and is based upon the analytic system:

Sanford's First Lessons in Analytical Arithmetic, 16 mo., 72 pp. 25 cents.

Sanford's Intermediate Analytical Arithmetic, 16 mo., 234 pp. Half bound, 45 cents.

Sanford's Common School Analytical Arithmetic, 355 pp. Half roan, 80 cents.

Sanford's Higher Analytical Arithmetic, 8 mo., 412 pp. Half roan. Cloth sides, $1.45.

The definitions are clear, and the analyses exhaustive. The work is practical, and abounds in slate exercises. The experience of a large number of the best teachers in this country is that, with Sanford in hand, pupils discover an unwonted enthusiasm in studying the science of numbers.

The Complete Series of Worcester's Dictionaries.

Quarto Dictionary. Illustrated and Unabridged. Library sheep, $10.

Octavo (Universal and Critical,) Dictionary. Library sheep, $4.25.

Academic Dictionary. Crown 8vo. Half roan, $1.88.

Comprehensive Dictionary, Illustrated, 12 mo. Half roan, $1.75.

School (Elementary) Dictionary. 12mo. Half roan, $1.

Primary Dictionary. Illustrated 16mo. Half roan, 60 cents.

For 825 Dictionary, Illustrated 24mo Cloth 63 cents; roan, 83 cents, roan, tucks, gilt edges, $1.

Many special aids to students, in addition to a full pronouncing and definitive vocabulary, make the above-named books, in the opinion of our most distinguished educators, the most complete as well as by far the cheapest Dictionaries of our language.

Worcester's School Dictionaries are based upon the quarto, which is preferred over all others by eminent scholars and men of letters. The series is admirably adapted to use in Schools, Academies, &c.

Liberal terms for introduction. We desire that Sanford and Worcester be examined by County Boards and Principals of private schools. Correspondence solicited.

We invite attention of Teachers to Canuevet's Mathematics, Cutter's Physiology; in a word, all our School publications. Circulars and descriptive catalogue furnished on application.

DAILY NEWS.

TUESDAY, MARCH 11, 1879.

Mind Your Own Business.

Mind your own concerns, my friend,
For they are yours alone;
Don't talk about your neighbor's faults,
But strive to mend your own;
Suppose he does not always lead
A truly pious life;
What matter if he sometime frets
Or quarrels with his wife?
Don't meddle—let him know, my friend,
Your better nature spurns
To act the spy on him or his—
Just mind your own concerns.

Yes, mind your own concerns, my friend
And presently you'll find
That all your time is occupied,
And you've quite enough to mind;
Why need you care if Snooks or Spooks
Should wed with Sally Jones?
What matter if your neighbor C.
A half a million owns?
The money is not yours, my friend,
Though golden stores he earns;
So do not envy him his wealth,
But mind your own concerns.

Yes, mind your own concerns, my friend,
It is a better plan
Than always to be spying out
The needs of brother man.
Remember that all persons have,
Though hidden from your view,
Thoughts that to them of right belong,
And not at all to you;
And also bear in mind, my friend,
A generous nature worms
No secret from a neighbor's breast—
So mind your own concerns.

Threnody.

R. J. B. in Burlington Hawkeye.

I've a letter from my sire,
Mary Ann, Mary Ann;
And he's just as mad as fire,
Mary Ann, Mary Ann!
And he says if I come nigher,
That he'll raise me ten times higher
Than the German Methodist spire,
Mary Ann, Mary Ann!
If to win thee I aspire,
Mary Ann!

Oh, I dread to see his fa-hace,
Mary Ann, Mary Ann;
For I know he'll give me cha-hase,
Mary Ann, Mary Ann!
He will waltz me round the room,
He will fan me with the broom;
Yes, I safely may assume,
Mary Ann, Mary Ann,
That he'll fire me out the roo hoom,
Mary Ann!

I'm so scared I cannot slee-sheep,
Mary Ann, Mary Ann;
For I'm struck all of a hee-heap,
Mary Ann, Mary Ann!
He is coming after me!
Blood in both his eyes I see;
Oh, where shall I fle-hee?
Mary Ann, Mary Ann;
He will make it hot for me-h

The Third Year of Fraud.

Two years of fraud! Seed in dishonor sown,
Has brought a harvest of hypocrisies;
We see that healthful grain cannot be grown
In soil that's foul with fraud and black with lies—
Publish we still the shameful fact abroad
That fraud's success becomes the shield to fraud!

What by our base surrender do we gain?
We teach the thieves and rascals of the land
That they shall feel no purgatorial pain
While stolen profits fill the grasping hand;
The crowned pretender is the rightful king,
And fraud, successful, is a sacred thing.

The reckless ringsters of the past return,
And all the scathless rogues again grow bold;
With new desires their shameless bosoms burn,
Their fingers itch to grasp the public gold;
And still the people, who must toil and pay,
Look on, and hope the cloud will pass away.

Two year sof Fraud! two years of shame and sin!
Two years has justice bowed its head and slept,
While all the branded thieves enjoy their spoil,
And they who foully got have wrongly kept.
Thus does the nation, bound by fraud and force,
Drift heedlessly upon its downward course.

Good for a Quarter of a Century

When the Legislature of Louisiana in 1868 pledged the faith of the State to preservation of the franchises of the Louisiana State Lottery, it builded better than it knew, for the supreme law of the land, as decided by the Supreme Court of the United States, has pronounced the dictum that a contract made must be adhered to, and the franchises of the Louisiana State Lottery, with its vast capital of over a million of dollars, must remain for fifteen years yet, until the expiration of the original term. *

The Law's of North Carolina.

Three china tea sets left Law's last week carrying pleasure and joy to as many country homes. Several sets of knives with silver forks, also, were brought away by visitors to the city. THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated. Every box has a red wax seal on the lid, with the impression DR. McLANE'S [illegible]

DR. McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

LIVER

HEPATINE.

This important organ weighs but about three pounds, and all the blood in a living person about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

BLOOD

STILLINGIA.

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. DR. PENNETON'S STILLINGIA, OR QUEEN'S DELIGHT is the only medicine upon which a hope of recovery from Scrofula, Syphilis and Mercurial diseases in all stages can be reasonably founded, and the only sure Cancer. $10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.

DAILY NEWS

TUESDAY, MARCH 11, 1879.

News Telegrams.

FOREIGN.

Terrible State of Affairs.

LONDON, March 10.—The Daily News correspondent at Berlin says: At a Parliamentary soiree on Saturday, Chancellors said that a partial disarmament was impossible. Germany, at least, could not begin, unfortunately she had to show front in four directions, and could trust none of her neighbors.

CALCUTTA, March 10.—The State of affairs in Mandaly is creating grave anxiety. The garrisons in the Brith Burmah has been donbled, burmese have interrupted the telegraph line between Rangoon and Mandalay, but the situation in upper Burmah is regarded as very serious for European residents. It is stated that while the recent massacres at the instance of the King only amounted to 40, and killing was attended by every possible atrocity—victims were beaten and kicked, women were shamefully abused and Royal Princes were reserved to the last and made to witness the torture and death of their families. The bodies of all the victims were thrown into old wells.

Gen. Grant asrived here to-day.

LIVERPOOL, March 10.—The Liverpool Courier's London correspondent telegraph's as follows: "The New French American Cable Company will be formally brought before the public some day this week. Cable is in process of construction and is expected to be laid during the coming summer.

Boat Match.

LONDON, March 10.—The Sportsman says: Hamlon is at Brooklands, near Manchester, and is going through a daily routine of strong exercise. He will shortly move to New Castle and go into a regular training in the Tyne. At present he is out of condition as he scales 172 against 148 when he rowed with Courtney. He also complains that his hand are very tender from lack of work. A match has been made between Champion Elliott and an unknown, over the Tyne course, to take place a month after Hanlon-Howdon match. The name of the unknown will be declared on the day of the Hanlon-Howdon match.

Attacked by Zulus.

CAPETOWN, Feb. 17, via MADERIA.—Col. Pearson was attacked at Ekow by a large force of Zulus. The latter were defeated with enormous loss and pursued to Eentamedi one of the Zulu military Kraals. Col. Wood reports that he has captured a large number of cattle. The health of his troops is good. The attitude of the native trites in Transvaal is disquieting, and it is feared the chiefs have formed a league against the British.

The governor of Mauritus has arrived at Capetown.

The men of war Bradicea and Flora are at Smions Bay. They have twenty-two cases of small pox on board.

Arrival of Steamers.

NEW YORK, March, 10.—The following Steamers arrived, Niagra, from Havana; Glen Lyon, from Shanghai, via. the Suez Canal; Carondelet, from the West Indies.

BOSTON, March, 10.—The Steamer Atrato, from London, which arrived here to-day, reports that on the 22nd. Feb'y. in lat. 46:10, long. 16:4. She passed a burning ship, supposed to be an iron vessel, of apparently 850 or 1000 tons burden. She went near the wreck but could not ascertain her name.

Walking Match.

NEW YORK, March, 10.—At a quarter past 10 o'clock this morning Rowell had completed 52 miles, O'Leary 47—Harrman 45 and Evans 42 miles in the great international walking race of Gilmore's Garden. A great crowd of people surrounded outside of the building and inside the attendance was large. Rowell kept up a trotting gait while O'Leary maintained a steady walk.

Believed to be Lost.

GLOUCESTER, MASS., March 10.—No tiding have yet been received of the fourteen fishing vessels which went out from here to the Georges Banks, and it is generally belived here that the entire number went down with all their crews in the severe gales of last month.

Went Ashore.

PORTLNAD, MAINE, March 10.—The ship Turkish Empire 1,600 tons, West, master, from St Johns to Dublin went ashore at Big Duck Island, near the Grand Menan, Friday. Total loss. Captain and six men drowned

Machine Shop Burned.

PENSACOLA, FLA. March 10.—Dunham's machine shops and foundry were burned last night. Loss about $5,000. No insurance.

Patterson Explains.

WASHINGTON, March 10.—The intelligence which is denied from Charleston, S. C. that Ex Senator Patterson had received full pardon for his alleged offences in South Carolina came from Mr. Patterson himself.

How Opinions Differ.

Concord Sun.

The Raleigh News, under the editorial control of Capt. J. B. Hussey, is doing noble work right now for the Democratic party. Capt. Hussey, is one of the most pointed editorial writers in the State, and we are glad to see him in charge of one of the dailies at the Capitol, in which place he will be abundatly useful to the party. The Statesville Landmark, under his control, was without doubt, the best campaign paper in the State in 1876.

Et Tu Brute.

Greenville Express.

The Raleigh NEWS is a good paper, an independent, outspoken journal. It favors retrenchment in deed as well as in name. It goes for the heavy and reckless appropriations of money to the Western Rail Road. Still there are people in authority trying to crush it. Et tu Brute?

Right Will Prevail.

Savannah News.

While we may soon see a very exciting contest going on between the legislative and the de facto executive departments of the government, it is not difficult to predict the result. That Mr. Hayes should favor successful and traitorous conspiracies against the liberty of Americans is most natural. He is not only a radical, but he is the creature and child of just such a conspiracy, and it is but to be expected that he should feel filial sympathy for his political paternity. Nevertheless, whenever patriotism, manhood, freedom and truth array themselves, as in this instance, against treason, conspiracy, fraud and perjury, the latter must in the worsted.

North Carolina's Vindication.

Congressional Record.

Mr. Steele, of North Carolina, said: Speaking for one congressional district, which is a part of the South, and believing that I am fully warranted in speaking for the whole State of North Carolina, I wager that there have never been such acts as the gentleman charges to be common all over the South. No election was ever held in the gentleman's own district where the rules of propriety and the requirements of the law have been more faithfully observed, or where there has been a more honest desire that the public will shall have a fair expression than have marked the wishes and conduct, at least, of the Democratic party, in North Carolina. So far, therefore as we are concerned, the charge is utterly untrue. We desire nothing but a just and peaceable election, where there is neither fraud nor force, either moral or physical.

But let me tell the gentleman (and I think I may safely claim to know much more of the subject than he does) that all the instances of which I have ever heard of either "fraud, violence, or intimidation," which have been practiced at elections in any State, were perdractiby the political organization of which he is a conspicuous and leading member. At every election in which much interest was felt since the passage of the acts of Congress which deliberately violated the constitution and ruthlessly invaded the universally acknowledged right of the States to determine the qualifications of electors; persons calling themselves Republicans have resorted to fraud and intimidation to operate upon the minds of the ignorant negroes and make them carry out the main purpose for which these acts were passed—ministration to the supremacy of the gentleman's party. He will permit me to say, that with his political views and associations, it is not quite becoming in him to speak so zealously of the purity of the ballot-box, when as I suspect, he is the apologist and defender of the most stupendous fraud upon its rights which the history of civilization and constitutional government records.

The South simply asks to be let alone and be made no longer a football for the amusement of political gladiators, who hope in our sorrows to riot in all the glories of a party triumph.

Josh Billing's Philosophy.

I hav no objeckshun to a man parting hiz hair in the middle, but I shall alwuss insist upon his finishing up the job bi wearing a short gown and pettikoat.

There is sutch a thing az too much energy. I have seen thoze who were like a yung hound in the chase get away ahed of the fox.

There are a grate many roads that lead to heaven, but after yu get thare only one gateway to enter.

If we would only profit by our experiences, or the experiences of others, it would be allmost impossible for lightning to strike us; but rather than do this we frefer to knock out what fu branes we have got against somebody's stun wall, and then how about the weakness ov reason or the malice ov fortune.

There is nothing that we have got so little ov, and nothing we have got so much ov, as originality.

It iz the little bit ov things that fret and worry us; we can dodge an elephant but we kan't a fly.

It ain't so much the amount a man knows, az the ability to use what he duz kno at the right time and place, that makes him a power.

I have been trieing to find out for the last forty years at what time ov life a man is the most phoolish, and just az soon az I find out, I will let you kno.

The hardest man to convince iz the one who agrees to everything you say.

Grant in China.

Washington Capitol.

General Grant will doubtless be in time to meet Colonel Mosby at Hong Kong and take tea with him, U. S. G. says he does not care whether India breaks the Juggernaut, because he carries a jug of his own. Chin Lan Pin thinks that the Chinese poet laureate will welcome the illustrious American somewhat thus:

Soondee gongee, shoote crackee,
Welcome Grantee in Chinee;
Give him whiskee and tobackee,
Tea and ricee Grantee no dinee.
Biggee chieftee, horsee boundee.

The Celebrated Seven Spring Iron and Alum Mass

This is decidedly the most useful, besides being the most efficnt Family Medicine ever placed within the reach of any people. Its reputation extends far and wide, and its great popularity is due entirely to its own merits For relieving Sick and Nervous Headache it may be truly said, to have no equal Dyspeptics find it just the remedy for their troubles. Mothers and daughters have long since discovered in its use a "panacea" for their worst ills; and now we have the testimonies of two eminent ministers of the gospel, from Southern cities, settiug forth its specific effects in other more dreaded and troublesome diseases.

Rev. John F. Mayne, Theological Seminary, Columbia, S. C., writes: "Am afflicted with that terrible disease, 'Diabetis;' am using the 'Seven Springs Mass' with considerable degree of relief; is the only remedy I have yet found to suit my case; want to continue its use until a cure is effected if possible. Send worth of the enclosed P. O. order immediately.

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find too late that a fever or lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boschee's German Syrup been taken, a cure would have resulted, and a large bill from a doctor been avoided. For all diseases of the throat and lungs, Boschee's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known. *

To the Readers of this Paper.

Most of you are familiar with our "Bible Propositions" which have been published in this paper for over two months. We are glad to know, that several hundred of you have already availed yourselves of its benefits, and realized, to some extent, the wonderful virtues of the "Seven Springs Mass." Being induced to try it on account of the fairness of the proposition. We fully expected some few would demand the "Prize." Thus far not one has put in a claim. On the contrary, we have been the recipients of "Bibles," and other tokens of appreciation expressive of gratitude and acknowledgments for having called their attention to the remedy.

Our object for making that offer, was not merely to relieve headaches, for that which many regard as a case of headache, is in reality only a symptom of more serious and complicated diseases, it was therefore, our to reach these complaints, (the names of which we dislike to publish in news papers) Knowing if the Mass was properly used for headache, the patient would discover its great value for other diseases, and we are glad to say, the plan has succeeded well, as evidenced from hundreds of correspondents, and the rapidly increasing demand for the Mass—and is being sold by all Druggists.

Dread and despair fall upon the community when a terrible epidemic, like the cholera or yellow fever, suddenly desolates our homes: yet, all the while, a more insidious, but no less fatal foe, enters thousands of households every year and carries off the flower of the family in the early flush of manly youth and budding womanhood. People call it presumption, or "decline," it is not, in most cases, the tubercular phthisis or consumption of the lungs, which is the peculiar malady in climates like those of the British Islands and New England, but a general decay or arrest of the vital processes of nutrition. All the doctors agree that there is no remedy for this but COD LIVER OIL but they are constantly met by the obstacle of inability on the part of the patient to swallow or retain it. This repulsion is entirely overcome by SCOTT'S EMULSION OF THE OIL with the HYPOPHOSPHITES OF LIME AND SODA which is agreeable to the taste and an unfailing nutrient and tonic for the body nerves and brain.

A Remedy that has been Remedied.

The invincible repugnance felt by almost every one to the smell and flavor of cod Liver Oil, has prevented tens of thousands of the victims of debility, from reaping the benefits of its peculiar healing and nutritive properties. The almost hopeless consumptive, the martyr to rheumatism, the barely living shadow of men, women and children that emerge from the cluches of malarial fevers, all of these know, or at least their doctors know, that of all discovered remedies, this Oil is the best and often the only one that will build up their wasted bodies, and restore to health shattered nerves, and far more effective than the Oil by itself is Scott's Emulsion of it, with the Hypophosphites of Lime and Soda. This is the finest and most natural food and medicine in the world, and wholly deprived of its disagreeable qualities. Sold by Wm. Simpson, Druggist.

FROM A PROMINENT VETERINARY SURGEON.

Mr. Wm M. GILES, Chemist, Sir: I have practiced extensively in Europe and America, and your new discovery, Liniment Iodide of Ammonia, surpasses anything I ever used for spavins, strains, lameness in the limbs or shoulders, weakness across the kidneys, wind galls, and hard, bony swellings on the joints. It is truly marvelous.

Yours very truly,
RALPH OGLE,
Veterinary Surgeon, 340 W. 25th St., N. Y.

Rescued, Restored, Revived,

It is marvellous how the rounded outlines of the form are restored, the pale and sallow cheek vivified with the ruddy hue of health; the muscular fibre braced and strengthened, the nervous system and the brain toned and invigorated, by the steady use of Scott's Emulsion of Pure Cod Liver Oil and Hypophosphites of Lime and Soda. It is by far the most elegant and effective preparation in the whole catalogue of medicines, and in the disorders indicated by scrofula, consumption chronic coughs, and the various stages of debility, it is a wonderful remedy. It is also deprived of all its disagreeable properties, and as sweet and palatable as cream. feb 14 1y
